PROJECTS

NetNest — Campus Exchange Hub

React · TypeScript · Firebase · Framer Motion

netnest-campus-exchange.web.app | github.com/Kunalkh05/campus-exchange-hub-main

- Built a full-stack campus marketplace for students to buy and sell books, notes, and study materials
- Implemented real-time in-app chat, offer system, email/Google authentication, and email verification using Firebase
- Developed an admin panel with user management, listing moderation, and platform analytics dashboard
- Integrated Framer Motion for rich UI animations including staggered reveals, spring physics, and smooth page transitions
- Deployed on Firebase Hosting and Vercel with responsive design across desktop, tablet, and mobile

Student Expense & Education Loan Planner (*Hackathon — Team CodeVengers*)

github.com/Kunalkh05/hackathon-project-CodeVengers

- Collaborated in a team to build a financial planning tool for students to manage expenses and plan education loans
- Delivered a working prototype under time-constrained hackathon conditions
